

The CLT series are hooking cable ties constructed of the highest quality materials, providing cable holding, fastening and bundling solutions for intense use, such as rental companies using and moving their equipment on a daily base. The different colored ends keeps a discrete look, while making it easy to distinguish different cable types. The writable part allows marking of cable length and / or cable type. Their patented hook & loop design allows for stronger, more durable cabledties.

### Product Features:

---

Dimensions	15 x 450 mm
Colours	Yellow
