

NMP40

Audio Streaming Sourcecon™ Module

Highlights:

- Compatible with AUDAC Touch™
- Spotify™ compatible
- True plug & play solution
- Works with any SourceCon™ enabled device
- Custom audio stream selection

The NMP40 SourceCon™ Network audio player module enables the possibility to stream audio files from a personal computer or mobile device directly to a professional audio system while maintaining the best available sound quality.

Compatible with streaming technologies like Spotify Connect you can stream music straight to your professional sound system directly from the cloud while using your computer or mobile device only as a controller. This avoids any unwanted interruptions and maintains higher sample rates.

The NMP40 is not compatible with AUDAC Touch™ 1.0. It will only be available on AUDAC Touch™ 2.0 that will be introduced in Q4 of 2019.

This version of the NMP40 is a TEMPORARY RELEASE. The remaining announced functionality will become available in the near future. Software updates will push these additional services to the current modules.

Applications:

- Bars, restaurants
- Retail
- Hotels
- Public facilities
- Houses of worship
